

ELECTRONIC STRIP CUTTING MACHINE BOTH HOT AND COLD CUT ALTERNATABLE

CONTROL PLATE FOR SM-208A

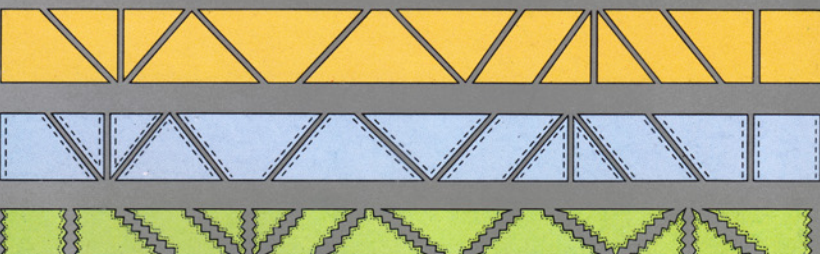

Model: SM-208A

FEATURES:

- SM-208A is the most flexible model and covered all cutting functions of SM-201 and SM-201A, any cutting angles and materials can be done with only SM-208A.
- Electronic control for setting cutting length from 1mm-99999mm, tolerance ± 1 mm within 1 meter for non-elastic material. Cutting angle on 45° width at 70mm, on 0 width at 110mm, tolerance $\pm 0.1^\circ$. 1 piece only with angular cutting, 2 or more pieces can be cut per cycle with square cut within 110mm.
- Cutting angles, feeding speed, cutting length and cutting pieces can be setted directly on control plate. Easy to convert hot or cold knife each other in a few minutes.
- Security devices as protective cover, non-asbestos insulator, emergency stop button, both front and back open stop cover and with fume exhausting fan.

RECOMMENDS: SAME AS SM-201A

CUTTING SAMPLE: Both square and slanted, hot and cold cutting, zig zag hot cutting is also available.

- Machine will stop automatically, if out of material. Every 100 pieces cutting, machine will re-check exact angle again by itself. Zig zag hot cut is also available by changing knife.
- Knife can be setted from 1-10 cutting times per cycle to meet very difficult and heavy materials.
- 1 year warrantee under normal operation.

SPECIFICATIONS:

Model	SM-208A
Cutting length	1-99999 mm
Cutting width	1-70mm on 45° 1-110mm on 0°
Feeding speed	4500-60000 mm/min
Tolerance	± 1 mm within 1 meter $\pm 0.1^\circ$ within 45°
Machine size	920×580×1280 mm
Packing size	1020×680×1300
N.W.	190 kgs
G.W.	260 kgs
